KPFK SWITCHBOARD
(818) 985-2711

9 AM to 5 PM, Monday - Friday

The final tally for our summer solstice fund drive came to nearly \$160,000. With your pledges, you have once again helped us to come close to our funding goals. Thank you for those pledges and please help us keep our pledge of great radio for you by mailing in your check as soon as the bill arrives.

While this drive was by all accounts the most successful we've ever had during the summer months, it is not enough to meet our immediate expenses. We're short of money, and that's the truth. Ouch. The good news is that we've still got a little time to make up this deficit. Naturally, we'll need your help. Over the next few weeks, we'll be sending out subscription renewal notices, along with a letter seeking more financial support from you. If you can, please help.

Thanks are due those of you who've responded to our call for volunteers in a variety of areas. We needed your energy for the fund drive, and you provided the people power. We sought some of you to help in the News Department, and you responded. We wanted people with information on KPFK's 30-year history, and some of you sent cards and phoned in suggestions. And we put out a call for people with expertise in fund raising, and several of you came forward.

In other news, we've hired a new Production Director, Jon Brian Peterson, and we have high hopes that he's the trainer and teacher we need to recruit and enable a new generation of volunteer engineers to operate the new production studio.

Over the next four months, our broadcasts will be punctuated by the occasional sounds of a new construction project taking place on the second floor of our building. While the Pacifica Foundation is footing the bill to relocate their archives upstairs, KPFK will benefit too. We'll get increased electrical capacity, wheelchair-accessible bathrooms on the first floor and a fire detection system. Please forgive the noise, and if you visit, the inconvenience of the project. We're still here for you and we're working closely with the general contractor to minimize the impacts of the construction. Our experience with him so far indicates that he is a believer in Murphy's Law (what can go wrong will go wrong) and a problem solver, with that caveat in mind.

Wish us well.

FOLLOWING THE DREAM-One of the products of the 60's counter-culture was a raft of communal societies — young people who dreamed of living together in a society of like-minded and sharing the products of their labor. Thousands were formed across America, and few lasted more than weeks or months. One such group not only survives, but thrives. The Twin Oaks Community near Louisa, Virginia, was founded in 1967 by a group of young people who had read B.F. Skinner's *Walden Two*. This documentary examines how well Skinner's behaviorism works in practice, whether or not people are ready to let the community take responsibility for their children and how permissive sexuality works in the age of AIDS. Produced at KXCV in Maryville, Missouri, and was made possible by a grant from the Virginia Foundation for the Humanities & Public Policy.
